

Latino Farmer Conference: Sponsorship

Sponsorship support from outside businesses and organizations have been fundamentally important to the ‘Growing Together’ Latino Farmer Conference success over the last five consecutive years. We are committed to bringing the latest in Spanish language conservation resources for Spanish learners, and networking opportunities directly to Latino farmers in California. As the conference shifts to a virtual platform in 2020, we look to expand this important work, across the country, and into the homes of many more farmers.

Your sponsorship donation will support three scheduled webinars set for: Dec. 10, 2020; Jan. 14, 2021; & Feb. 11, 2021
